五、克漏字選擇(每題2分/共10分)

In the art world, many artists with “weak” bodies have shown us a “____ (29) _____” power in their great works of art. Take Frida Kahlo for example. She was a healthy girl until she was knocked down by a bus at the age of twelve. Much of her body ____ (30) _____ seriously, but her mind wasn’t. In her paintings, we can feel her strong love of art and life. ____ (31) _____ example is Christy Brown. He was born in bad health, and the only his left foot could move. However, using his only foot, he still was able to write and draw wonderfully. In his autobiography, Brown wrote ____ (32) _____ in his life and how he began to draw pictures with his left foot. And don’t forget Stevie Wonder. He became blind soon after he was born, but he is now a popular singer and songwriter.

These artists’ stories tell us that the most important thing in life is not ____ (33) _____, but what we make of it.

[102.基測閱讀測驗]

32. () (A) what happened (B) why she got lost
(C) when did she get hurt (D) where did she belong
33. () (A) who we were (B) whether we can draw
(C) how we live (D) what we have

六、閱讀測驗(每題2分/共12分)

(Q34~36)

Lots of people think that dogs see in black and white. But this is not true. Scientists recently discovered that dogs do see colors, just not quite the same color that we do.

When people see a rainbow, they see purple, blue, blue-green, green, yellow, orange, and red. But when dogs see a rainbow, they see gray, blue, gray, yellow-brown, yellow, and yellow-brown. Can you imagine?

Dogs see red and green as a single color (yellow-brown) and also blue-green and purple as a single colore(gray). This means that if you buy your dog a bright red toy, it will see it as an ugly yellowish brown.

Why? Well, a human eye has three different types of cells that can detect color. Dog’s eyes, however, have just two. This makes the range of colors that they can pick up much more limited.

 detect 偵測，發現； limited 受限的

34. () What is the article about?
(A) How to feed a dog. (B)What color dogs like.
(C) How dogs see the world. (D)What color is the best for dogs.
35. () What colors do dogs see the same as humans?
(A) Purple and blue. (B) Orange and red..
(C) Green and yellow (D) Blue and yellow.
36. () Which is true?
(A) Dogs can only see black and white.
(B) For dogs, there are four colors in a rainbow.
(C) Dogs have three different types of cells to detect color.
(D) If you buy your dog a purple toy, it sees the toy as gray one.
