Dolphins, the most friendly mammals in the world, have to swim to the top of the water once every twenty minutes to \_\_42\_\_. They too have to \_\_43\_\_ sharks or other enemies so their half brain stays awake, while the other half goes to sleep. As for Alpine swifts, they keep flying for such a long time that they eat insects and take little naps while in \_\_44\_\_. This habit protects them from being caught by wild animals if they land. Studies have shown that these little birds may stay in the air for \_\_45\_\_ two hundred days!!!

#### IV. Reading (2%X5)

Good skin care doesn't need to be a difficult task. Just remember a few simple steps, and you'll be on your way to having a face without pimples! First of all,

remember the saying, "You are what you eat." If you choose to eat a lot of oily fried foods, sweets, and other foods which is not good for your health, your skin will not love you for it. Remember, the key is balance—you need to eat a lot of healthy foods like green leafy vegetable, meat with not much fat, and brightly colored fruits like blueberries. These foods will help your skin glow.

Next, don't forget to drink plenty of water every day. If you are not getting enough water, your skin doesn't stay hydrated, and your face will look dull and dry. Remember, six to eight glasses of water a day makes for happy skin.

Water can have great benefits on the outside of your body, too. Good skin care includes washing your face at least two times a day. In your teenage years, as your body is going through a lot of changes, your skin can get oily more quickly. This oil builds up and can cause acne\*. In order to prevent this, wash your face twice a day with a gentle soap.

Happy skin makes for a happy teen, so remember, with just a little effort you can have the freshest face at school!
